Greetings from the Sudduth Family

April 1, 2017

Dear Friends,

"How is the food?" is often a question asked by prospective families as they consider camp for their daughter. We are proud to say it is healthy and tasty. Thanks to Chef Steve and his team. We aim to please in a nutritious way.

We treat meals as an important part of the camp program. Mealtime is an opportunity to socialize, share stories about our day and sing songs together. We can satisfy our social appetite by being surrounded by camp friends and also take care of our need to replenish energy from all the outdoor activity.

If you are an alum from the 20th century, you probably remember eating in the Senior or Intermediate Wigwag. For thirty years George and Carol saved to build a new dining hall to consolidate our food service, deliveries, kitchen personnel and equipment. It made sense to manage from one location. To celebrate our 100th summer, Wyonegonic built the Cobb Dining Hall in 2001. It is a beautiful, functional post and beam edifice on the hillside in the middle of camp. For a few days we heard rumblings about hiking "Cobb Mountain" to get breakfast. Quickly everyone realized the reward for the walk was worth it as meals were tasty and the climb to the Cobb Dining Hall was a relaxed way to walk with camp friends, laugh and feel free.

Meals are served family style for breakfast and dinner with two counselors and eight campers at a circular table. Each week campers sit with a different group of girls. At lunch-time we have a buffet: a salad bar, homemade soup, deli sandwiches, something hot, leftovers, bowls of fresh fruit and yes of course, a surprise for dessert. Lunch buffet is a favorite because we love having choices. We eat at unassigned picnic tables on our wrap around porch and it is easy for us to accommodate guests and alumnae visitors.

Cookout

On Saturday evenings we have cookouts in the respective units. On July 4th and in early August on George N. Sudduth Road Race Day, we have a chicken BBQ for the entire camp at the Sudduth Farmhouse. We still have season ending Banquets in our units. Our trip shack, which moved into the "old" senior kitchen at the conversion to the "new" Dining Hall, is a bustling place which has its own inventory of food pack outs for canoe trips and hikes.

Last summer the driver of a food delivery truck said, "You folks eat healthier food than any camp I deliver to in the state of Maine." So yes, we are proud to offer tasty, healthy food. We know food can be an easy target for complaints so we aim for the best. Thanks Chef Steve for orchestrating this huge responsibility.

Alumnae News - Cobb Years 1902-1969

Dee Apted Grover and **Margie Acton Driscoll** sang camp songs on their last visit. In September, Margie enjoyed a week at her favorite beach on the Tuck islands. News of her three daughters: **Lori** is teaching at Chester Elementary School; Jenny is working as a nurse; **Leslie** enjoys her position at Yale. **Winifred Wightman Webster** lives in Yarmouth Maine and spends much of her summer on Bailey's Island. She is happy to learn that her cousin is supervising the Wyonegonic arts and crafts program.

Gail Edgerly is settling in to her new residence in White River Junction VT. Gail still has the travel bug. **Mary Hobler Hyson** keeps herself moving between piano and art lessons, photo exhibits and checking in with her parents, who are still in Princeton NJ, married 72 years. Mary and her family continue to enjoy a week's vacation in Bridgton ME. After 40 years, they now celebrate this week with grandchildren. **Joan St Claire Goodhew** and husband Bill who reside in Atlanta hope to visit Maine.

Carlton Smith celebrated a special birthday, arranged by her creative daughters in her Maine house by the sea. Carlton's life is full of things she loves to do; dance, sing, theater and feeling proud of her two daughters. She also finds time to garden and help others. **Andy** and **Jean McMullan** are living in Jensen Beach, FL. They enjoy the attention they receive from daughter **Kathy** and her husband. For Jean's 90th, Alford Lake Camp launched a successful campaign in Jean's honor to raise scholarship monies for future campers. Jean's daughter-in-law, **Susie McMullan**, directs camp with Betsy and now lives in the Vero Beach Condo that Jean and Andy owned for 30 years. This brings grandchildren close by for visits. Jean and Andy still summer on the shores of Alford Lake in Hope ME.

Chloe King and her partner have moved to South Weymouth MA from their home of 48 years in Needham MA. They still enjoy trips to open rehearsals of the Boston Symphony Orchestra. They are now wintering in Florida and enjoy summer days in New Hampshire playing golf. **Carol Wiggins Kamm** in Richmond VA, heard from **Martha Webber Wallace's** daughter Jennifer. She wrote that her mother is now

living in a memory loss unit in Gorham ME. Even so, Jennifer writes that Marty speaks of camp days with her lifelong-friend Carol. They met each other as campers and experienced many happy years at camp, culminating decades later directing Junior Camp.

Becky Trafton

Becky Trafton is enjoying life in Boulder. She has 4 grandchildren. **Irene Mack Goodsell** sends fond memories of camp and mentions she still stays in touch with camp friend **Connie Wagnon** in Birmingham AL. Her niece **Katie Dunn** lives across the street from the Sudduth Farmhouse. Katie likes to cross-country ski through the Wyonegonic woods to enjoy the horseback riding trails. **Lucy Sanderson Carney** came to the NYC Reunion with her granddaughter who is a 4th generation camper. **Barb Nichols Kirwood** and her husband are "mostly retired" and enjoy skiing in Colorado where their two sons reside with families.

Anne Darneille Snodgrass and husband Tony spend summers in Maine, winters in Florida

1942

and special holidays with their children and grandchildren who live in Houston, NYC and DC. **Katie Jacobs Eyre** and husband Bob are trying to build some life outside of work as they think about the next chapter of their journey. Their third son was married in September and they have 3 grandchildren belonging to an older brothers.

Jack Erler and his wife enjoyed a total of three months at their home in Culebra, Puerto Rico. In September, they took a return trip to Italy, and lived in an apartment in Tuscany where they explored many hillside towns. They hiked in olive groves and vineyards. **Mary Green Warden's** daughter sent her a Wyonegonic 100 Years book which she enjoyed. It is interesting that as people age they often want to reconnect with Wyonegonic as their camper days surface as memorable, significant and impactful.

Barbara "Bunny" Bowen Oberg was delighted to have two grandchildren on Moose Pond last summer. She loves singing camp songs with granddaughter, **Sally Higgins** who will be a returning camper. **Amanda Kirkpatrick Dickerson** brought her daughter Zoe to Wyo Candlelight and then they climbed Pleasant Mountain the next day. **Zoe Dickerson** is a sophomore at Colby College majoring in Environmental Policy. This Fall, Amanda lost her 96-year-old mother, **Carolyn "Carol" Bryan Kirkpatrick** (a Wyonegonic Counselor) and brother Bryan, who was a Winona alum.

Gail Theis Goodman loves wearing her Wyonegonic sweatshirt because it reminds her of happy camp times. The sweatshirt was gifted to her by granddaughter, **Jacqueline Goodman**, who also spent summers at Wyo. **Bev Lord** has received a Lifetime Achievement Award for her ongoing work in the public schools presented by the Massachusetts Association of School Committees Inc. **Diane Geyer Dudley** and her husband enjoyed a walk through camp with Carol and **Ginny Geyer**. **Wendy Clark Wescott** has moved to a new house in Barrington RI. She enjoys having her grandchildren close by. She also owns a vacation home 15 minutes away from Wyo on the Bridgton/Fryeburg line.

"KIYI"

Can any of "Wyo" campers find the origin of this word? There must be a linguist or two who have some leads on where this originated. Maybe the Cobbs or the Sudduths know or have some idea how to research KiYi.

To me the KiYi we said to each other at closing circle each night was like wrapping myself up in a warm, snuggly blanket...cozy, loving, secure. The KiYi seemed to wash away the angst, if any, of the day and promise a happy fun-filled tomorrow.

My husband, Michael, a Wisconsin Camp Manitowish alum (as is Carol Sudduth and her siblings) soon understood that for me, KiYi carried a very special meaning. No, we didn't name a child KiYi but we did name a boat KiYi and a house that we own in California. (Where names are the only identity.)

Where have all of us come from and settled? Like daffodil seeds blown to the wind, many close by but others very far from Moose Pond. There are so many cherished memories both near and far. If you see a KiYi somewhere, you would have no trouble conjuring up your favorite camp scene...a loon call, a friendly smile or a moon beam shimmering directly to you on a starry night.

Luckily for me: a Wisconsin and California resident flung far from the view of Pleasant Mountain, I have two granddaughters, Marguerite Tate and Kiona McCormick who share my love and appreciation of the unique and beautiful summers at "Wyo" and relay stories that fuel my memories. (K. will be an Inty counselor this summer!)

KiYi,

Mary Ellen "Mellen" Daniels McCormick
From Buffalo NY; resides in Waukesha, WI/Monterey CA
Wyonegonic Camper 1950-1957; Grandparent 2013-2017

PS; Since my 8 summers at Wyonegonic, I have 56 summers on the south shore of Lake Superior. There I have sent out driftwood "boats" with candles and watched them gallantly bob away.

Being a Wyonegonic Girl . . .

The day the spring Loon arrives in the mail is one of my favorite days of the year. It brings with it memories of people and places, and I read and reread its pages to make sure I have not missed anyone's name, news, or picture. And even after such extensive reading, I am still always hesitant to put it in recycling.

One of the most enduring and endearing dimensions of being a Wyonegonic girl are the numbers of others who share this experience. We all were lucky enough week after week, summer after summer to wake up and go to bed looking across Moose Pond at Pleasant Mountain, a sight now—whether a photo or a memory—still brings joy. Yes—we had to dip our feet in the water basin outside our cabin door to rinse off the pine needles so that we didn't get marked down for inspection, but that was a small inconvenience for the pine needle aroma that always surrounded us. And of course—if we had listened to our counselors (or if, when we were counselors, our campers had listened to us) and not walked the cabin path barefoot after swimming, we wouldn't have had those pine needles all over our feet to start with!

Reconnecting with Wyo friends through Facebook is one of the best reasons to use that form of social media. It is not as much fun as reconnecting in person (which I did recently with **Marsha Hahn** for the first time in 30 years), but it is pretty darn fun. (My husband hears so much about Wyo, he feels like he went there, too. And my mother often jokes at meals that we have to take at least a "no thank you" helping.)

When I started my first summer as a senior camper, I could never have guessed that I was also starting friendships that would not only last but be meaningful after all this time. Or that activities that I started as a camper would still be central to who I am. In 2014, **Ruth Wyman Neagle** and I completed all 48 of the 4000 footers in NH. We hiked all 48 of them together and the very first 4k I summited was Lafayette as a senior camper—and 40 some years later we had summited them all.

Aren't we glad we all are Wyonegonic girls?

Summer Fun - "detoxing from the school year"

Off the grid- that's our dream, right? To spend some time each summer at camp detoxing from the school year ambush of social media, tech devices, and all the social pressures that come along with them. Camp gives us that nostalgic summer of fun- friends on the lake, barbecues, campfire stories, and sleeping under the stars. It's a chance for personal connections without the devices. Stories are shared by the light of the stars each night, on a sailboat on a crystal clear day, or while stopping for "gorp" along a mountain trail. There's no denying the power of the friendships formed in these blissful summers when we have the time and space to develop real and lasting relationships. We are the lucky ones who get to find our "tribe" right when we need them to help support us through the rapid changes of adolescence. These camp friends are family, the family we choose, and there's a special kind of magic in that. There's no pretense at camp, or at least it all falls away pretty quickly when you are living and interacting in such close quarters. What shines through is your genuine self and when you make friendships from your true self, it's magic.

Ah, but closing day can bring it all crashing back. By the first evening home, phones are dinging around the world as camp friends connect to each other digitally, recreating the social networks that were formed at camp in a new, online environment. Parents everywhere are cringing at the immediate return to the screen but is it all bad? Does the digital network somehow discount the social bonds that were formed in person?

As a camper of the '80's where snail mail was the only way to keep in touch with camp friends in those long winter months, I could easily wax nostalgic about the letters I both wrote and received over the years- the single pine needle wrapped in a poem to remind far away friends of our summers on the shores, the notes hidden away during a school day until an envelope and stamp could be found. These treasures were eagerly anticipated and so real to me. But let's be honest- there were also the days where the teenage angst was rising and I could have used my "tribe" around me. In the depths of February, they could feel very far away.

My teenage camper days are long gone but the intensity of those friendships has only grown in the intervening years. Certainly I treasure the memories of the mail that would criss cross the globe in those years but I am also witnessing the sense of connection that the digital social network provides. As my children enter adolescence, their camp friendships extend into the school year in ways I never could have imagined. The group chats, the constant exchange of photos, the inside jokes...the digital world has a way of strengthening the camp connection. I can't tell you how many times I've told my oldest

to stop texting and actually interact with people only to find out that I was interrupting a wealth of great communication happening through the phone.

As a mom, I want nothing more than for my own children to find their tribe- those friends that will always be there to see them through the turbulence of life. Who will my children call when their first child is born? Who will drop everything to be with them when the going gets tough? Their family, for sure, but also their camp friends. So when my children come home from a rough day at school and I find their phone beeping with a cascade of messages, I know that their tribe is jumping in. Their camp friendships have kept them laughing, crying, and connecting through each winter and as they get older, that bond grows. Sure, it drives me crazy when their phone is beeping as we are having a family dinner but let's be honest... so is mine and it's my tribe, checking in, keeping me connected to my camp family. We still have the rules and the limits and the checks on their devices but in my heart, I also celebrate that they have found their camp family and are learning how to stay connected in the digital age.

And years from now when their camp friends are standing next to them on their wedding day, I'll be the first to post the photo on Instagram.
