# Wyonegonic Traditions

## Pine Grove

It is common and predictable that when alumnae come back to visit Wyonegonic and stroll down memory lane, they want to take an unhurried walk through the Pine Grove. Isn't it a marvel to realize that a tradition started 105 years ago still has meaning in the 21st century?

If you were to visit the Pine Grove today on a Sunday Morning you would witness all four units of campers and staff participating in sharing this special place. The service still has a feel of Quakerism, as introduced by the Cobb Family in 1902. Although given the choice, the unit in charge of planning the service on a particular Sunday, almost always closes the 1/2 hour of sharing with an open service and opportunity for a "spokescamper" from each cabin to speak on the theme of the service.

The group in charge presents their theme in a combination of ways - through poetry, readings, quotes, musical instruments, singing, skits or dance. The entire unit takes part and

is instrumental in the planning process. The towering pines protect the rest of camp who is sitting on the hillside. All whites are still worn and a buffet lunch follows in the Cobb dining hall, so that campers of all ages can mix and eat with sisters, cousins and friends of their choosing.

The theme is usually circulated in advance of Sunday so that cabin counselors can get into dialog with their campers about what they would like to share and express. This is a process of brainstorming, cooperating, creative expression and selection. Topics chosen are comfortable for all religions so that everyone feels comfortable. Some recent themes have been: Circles; Friendships; Independence; Peace; Our Environment; Community; Color; Respect; Adventure and Challenge . . .

So why has time in the Pine Grove been so powerful over the decades. Is it time together with everyone at camp? Reflective "time out"? An appreciation of absorption of a serene

place? A chance to share? An opportunity to perform . . .

You have the answers. You have been there. You have had the experience. You are the ones who understand why this is an important place to visit upon your return. This is one of many Wyonegonic traditions that still has meaning for today's campers, just as it did in 1902.

## Candlelight

The last night of camp holds its own special glow. Last summer more alumnae and parents gathered to enjoy our final ceremony than I had remembered in 45 summers at Wyonegonic. It was wonderful to observe alumnae find friends from decades past and enjoy conversations with old friends. Campers dotted the dock with their candles as Seniors

approached in canoes. Little boats sailed, and music filled the air. The sunset, the wind, the loons tell the rest of the story. If you can't make it for a Candlelight celebration we hope you light your candle and think of camp days and the people that touched your life.

## Banquet

Laughter and tears - dancing and singing - prose and poems - the smell of pine boughs - driftwood candlelabre - a meal served by counselors - recognitions for accomplishments - mixed emotions with close friends - evening circle. This is a celebration with the camp community!

## A quick hello from Carol & Steve

Wyonegonic is brimming with campers for this summer and we have been able to accommodate most of the wait list, but not quite all. Each year we challenge ourselves to hire the best staff possible. We still have work to do. Please see page 13 and help us with our needs if you know of exceptional candidates. Every 5 years we have been offering Family Camp Session III at no cost to Wyonegonic alumnae. This is year 105, so come join the fun.

In this Loon we are featuring an alumnae for each of the eras: Mary Trafton during the Cobb years; Jeff Twiss during the Sudduth Years; and Simone Carroll during the 21st Century. Our alumnae are amazing people and many do incredible things for others and in the work place. We chose to share these three profiles with you. Let us know someone we should feature in the future.

Ki yi - and please know you are welcome to stop by for buffet lunch at the Cobb Lodge during the summer.

*Carol & Steve*

# THE COBB YEARS

## 1902 - 1969

**Jean McMullan and Andy** are back in their beach condo in Vero Beach, FL after being displaced for a year because of hurricane damage to their home. They still summer in Maine and support the activities at Alford Lake Camp, which is under the direction of their daughter in law. This is an exciting 100<sup>th</sup> year for ALC. Jean is a member of the celebration committee. She checks in with **Helen Cobb** weekly who is in residence at Indian Rivers Nursing Facility in Vero Beach. **Carol Wiggins Kamm** and Bill have moved to Richmond, VA where they are now residents of Westminster Canterbury. They have had a different kind of year, selling their home in Williamsburg and moving to Richmond. They traveled to hear son Paul's concerts in Florida and enjoyed son Chris' craft show in Philadelphia. **Susan Kamm Connors** helped in the camp office at the opening of our camp for three weeks and then returned to their home in Alexandria, VA. Her daughter **Kathryn** was a counselor in Junior Camp and enjoys life on the University of Virginia campus.

**Georgia Johnson Pooley** took the tribe of their three children and all grand-children out west to the Bighorns. They had a real western experience at a ranch and did lots of horseback riding.

**Betsy French Cayo** went cruising through the Panama Canal in early March. She is elated to hear that Pleasant Mountain has been saved. Wyonegonic is happy memories for Betsy and her girls, both of whom are now Moms: Alison lives in Winchester MA; Missy and her family live in CA.

*Betsy French Cayo with daughters - Alison, Melissa and babes.*

**Joanie St Clair Goodhew** writes from Atlanta that she missed getting to Maine this summer. A Christmas photo filled with grandchildren leans heavily towards males. She hopes to get some of those outnumbered granddaughters to Wyo. **Lisa Behr** and her husband have moved to Tucson, AZ where they enjoy the challenges of different hikes. Last summer, they traveled to Alaska to escape the heat. **Cornelia "Skip" Gentry** is back in her repaired Vero Beach Condo. She spent her summer in Maine with her daughter Carole and three

grandchildren. **Evelyn Weeden Kenyon** remembers climbing Pleasant Mountain and is pleased to see that the land has been preserved. She still uses the tray she painted at Wyo 70 years ago in an arts and crafts class. **Carol Merriman Osmer** is planning a trip to Alaska in May and a family reunion in Vero Beach mid-August. Unfortunately, the latter will collide with her annual trek to Family Camp. **Katie Jacobs Eyre** has boys recently graduated from law school, interning in med school and a senior graduating from Williams College. Katie balances clinical hour in social work with her regime of exercising regularly.

**Belle Vreeland Hoverman** strolled through Wyonegonic and relaxed on the porch to ponder about the special spirit of Wyonegonic. "I still hold camp, the loons and the lake and all that was and is still is, close to my heart." Belle is a pediatrician in Austin, TX and enjoyed the time out while picking up her camper niece. **Sally Barnes Sonne** joined Wyonegonic sisters **Barbara** and **Sam** on Christmas day in NYC. At Thanksgiving time, the Sonnes entertained 15 - all of their children and grandchildren. Sally has just returned from doing grandmother duty in Seattle, WA where daughter Edie gave birth to a son in January. Sally occasionally joined

her husband Chris on hikes as he attained his goal of climbing all 115 of New England's and New York's 4000-footers. The Sonnes continue to like the challenges nature presents in outdoor space and places. **Ruth Stickney** sends greetings of "harmony and good fortune." Ruth is still a regular at the Boston Symphony Orchestra.

**Polly Marcy Spaulding** came to the Seattle Reunion. She and her retired husband are traveling, skiing and biking. They still reside in Tacoma WA and they rent a condo in Breckenridge during ski season. **Ginny Cobb Thibodeaux** writes "thanks for passing along the wonderful traditions that mean so much to all of us." The Sudduths enjoyed a good visit with Ginny and **Phil Cobb** at his daughter, Pam's wedding in Cambridge MA. Pam is directing Camp Runoia on the Belgrade Lakes and is also president of the New England Section of the American Camp Association. Leadership in the field of camping carries on through the Cobb family.

**Nancy Mallory Sansouci** successfully completed her 48<sup>th</sup> New Hampshire 4000-footer in September. Congrats on the huge accomplishment Nancy. In early January, she and her daughter Lisa walked in the Disney Marathon in Florida.

## 1902 - 1969

Annie Barto Williamson & Barbara "Bunny" Oberg

**Barbara "Bunny" Oberg** continues to document "The Jefferson Project." Funding for this project is supported by Princeton University. The project has been years in the making as the founding father was a prolific letter and speech writer. Important resources are unending. Bunny attended her daughter's wedding in Portland, ME at the same church where her mother was married. Bunny visited her counselor from 52 years ago, **Annie Barto Williamson** on this same trip.

**Hannah Palmer Snyder** was able to visit with **Anne Orren** in October before Anne passed away from complications due to cancer, after she had struggled with MS most of her adult life. They had enjoyed common days and interests in Intermediate Wyonegonic in the early sixties. **Leslie Breed McLean** was pleased her daughter enjoyed Wyonegonic and is returning for the 7-week session. **Betsy Sikes Wallace** and **Barbara Sikes Schmitt** meandered through Wyonegonic at the end of summer. This was their first trip back since camper days in 1967. **Diane Longmaid Kelly**, who lives in Connecticut, sent photos from the mid-forties for us to add to our archive collection. **Emily Peterson Mumford** who lives in Houston, TX, shepherded her granddaughter to Wyonegonic on opening

**Mary Trafton Simonds** - Not to many years ago Mary Trafton Simonds and her husband Bill took a canoe ride during Family Camp. They wanted to explore the islands and enjoy the soothing peace of Moose Pond. Mary's never forgotten "J" stroke guided the canoe. Can you imagine the joy of sharing this passion with her husband Bill? Faces of canoe instructors and memories of packing for trips on Maine rivers and lakes flooded her mind as her fingers trickled in the warm waters. This was my first recollection of meeting Mary. We have enjoyed several visits since including lunch at her home in Lexington MA last month. Mary is living independently, still driving, still taking walks, still loving photos and news of her family, still cherishes camp days. We are quite sure that the Trafton family has been the most prolific family at Wyonegonic and Winona. By the time you count the generations of Traftons, Gutmans, Simonds, Frishkorns, Bealls, Barnes and than add the cousins, the number exceeds 100. Mary caught me up on family news and passed along vivid memories of camp. Coming to camp by boat, hiking Mt Washington with Roland Cobb, being a counselor at age 16 . . . I am happy to report that Mary looks well and remains active with her volunteer work. She accompanied me out to my car and than proceeded to walk her 1/2 mile on a sunny March day.

day. After camp, they spent an hour on the phone comparing camp stories at the end of a happy Mimi's first summer. Grandmother wrote, "The days I had on Moose Pond shaped and influenced my life. I had such wonderful friends and experiences." **Margaret Post MacDougal** visited camp with her husband Bruce. She is a clinical social worker but recently returned to school and obtained a degree in Art History. **Mary Hobler Hyson** and Eric have taken the family to Disney World, to Delaware for Grandma's 85<sup>th</sup> and trekked to Nova Scotia, Maine and North Carolina.

**Teddy Rupp** sends "thanks for another great Family Camp - good weather, great food, plenty of activity and old friends." **Susan Hyman Besharov** wrote "our daughter's wedding at Wyonegonic surpassed all expectations. Of course, the highlight was the ceremony in the pine grove. I can not imagine a more perfect place to celebrate a marriage." **Margie Acton Driscoll** has stepped down from managing her real estate office and finds her time more flexible to spend time with grandchildren. **Rosa Murray** has moved from South Carolina to Falmouth, MA where she is close to grandchildren. She enjoys spending time scouting out the nearby Indian lore as she was an avid Wampanoag while serving as Junior Waterfront director decades ago. **Barbara Nichols Kirwood** enjoyed a "walk down memory lane" in September. She also took a peek in the Cobb Dining Hall. Her hope is for a future Family Camp stay with grandchildren and that the

youngest granddaughter gets to camp when she becomes of age.

**Becky Trafton Frishkorn** created the "Garden Story" for PBS with partial funding from "Plow and Hearth". It is a four-part series exploring the power of gardens to transform our lives. **Barb Trafton** and her family spent Christmas in Oaxaca, Mexico. Barb and Bruce live on Bainbridge Island, WA and she continues to paint as she and Bruce raise Keziah and Jackson. **Mary Taylor Hurst** and her husband went to Loreto, Mexico on the eastern shore of the Baja's and enjoyed kayaking in the National Park. Mary writes of great exercise, beautiful environment and thoughts of Maine and Moose Pond. **Judy Renthrew Hart** keeps hoping that Wyo will visit Michigan.

Elizabeth & Margaret Perkins

**Hope Dana** is pleased that Margaret will be joining daughter Elizabeth at Wyonegonic this summer. **Frances Ewing Miller** ran into

Good camp friend **Katie Wiley** was one of several bridesmaids in Sarah's recent wedding. **Joel Bruning** hiked for two weeks in the California Sierras and enjoyed the sunny scenery and

lakes of California. He loves Yosemite and his parents still live nearby. In New England, Joel completed his 48<sup>th</sup> 4000-footer with Jill Gasperini, Carol Sudduth and Simone Carroll. Joel writes, "it was truly a fabulous day and fitting because most of his 4000-footers happened while leading campers in Senior Wyonegonic." **The Rivkins (Jen Conlin)** and **Judges** (Paul and brother Bruce) enjoyed celebrating common birthdays in London last July. **Jen Conlin Rivkin** then came to the states with her three children who are all campers on Moose Pond. Paul Judge's daughters **Hannah** (CIT) and **Kate** are also campers. Both families happen to be living in London and thankfully avoided the subway bombings last summer.

# THE SUDDUTH YEARS

## 1970 - 1999

**Jeff Twiss** taught tennis in Wyonegonic's senior camp in 1980-81. He married Sarah Hitchcock Twiss (Wyonegonic's Swim Director) whom he met at the University of Vermont. Their daughter Lindsay returns for her 9<sup>th</sup> summer at Wyonegonic. Lindsay's participation has been a wonderful excuse for Jeff and Sarah to visit annually and soak up a little of the pine scent from Wyonegonic's acreage.

While at the University of Vermont, one of Jeff's faculty advisors was Jean Condon who had been a sailing counselor at Wyo in 1960. The text below was taken from the Vermont Quarterly.

"In an advising session toward the end of his UVM years, Condon asked Twiss a strategic question: "What happens if you don't get a teaching job?" Jeff would have gotten a job teaching tomorrow - good people always get jobs," she says, "but there were so many other interests burning in his gut" she wanted him to consider.

To open him to new possibilities, she asked Twiss to write down his dreams on one side of a sheet of paper and the reality of how to get there on the other.

"We had such a good talk about dreams," she says. "He thought in very small terms - maybe working in a sports information office at a small college." Condon knew he was a Celtics fan, so she asked how he'd like to work in the front office for the team. "He didn't think he'd ever be able to do (that) but he was willing to listen to me."

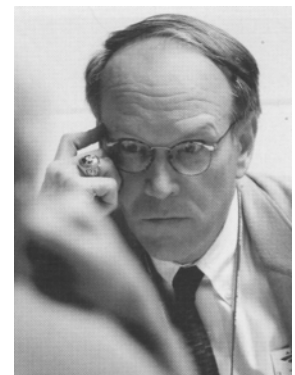

Condon made a cold call to the Celtics and miraculously landed Twiss an internship. "He was so wide-eyed, sponging everything up, and so excited," she says.

After graduating from UVM, Twiss got a teaching job at Randolph High School in central Vermont. After a few years, he again felt the pull of a life in professional sports. A master's degree program in sports management at the University of Massachusetts led to a second internship with the Celtics.

It was the fall of 1981 when Twiss was at the end of that internship. He was driving Red Auerbach home from a preseason game in Providence when the coach asked, 'How'd you like to work for the Celtics?' "He was reliable, sincere, and direct," Auerbach, ever the judge

of basketball talent, recalls. "I thought he'd be a good addition to the Celtics staff."

25 years later Jeff juggles the myriad of details that go with his job as Vice President of Media Relations for the Boston Celtics. The job has its challenges but those who know Jeff say "he is the nicest guy in the building". Overwhelming evidence says that Twiss is well-liked because he is genuine, considerate to a fault, and makes a habit of going out of his way to help others. With professional athletes, Twiss' people skills are put to the ultimate test. However, as we all know, the smile is always there and his sincere offer to help ever-present. His dream leads on . . .

# Together we make a difference

Simone Carroll was a Wyo counselor in 1996-97. She then worked for Australia Outward Bound for eight years. Last summer she returned to direct Senior Wyonegonic. Before returning to Australia she traveled Eastern Europe and volunteered at an African Camp. Her accounts of this experience follow.

I have just returned from South Africa where I volunteered as a counselor at Camp Sizanani, World Camps. Wow what an experience, I would like to share a little bit

of it with you and thank each camper who helped make the difference to the life of Lungile, the camper Wyonegonic sponsored.

Firstly to give a little background, during the summer of 2005 many Senior Wyonegonic Campers watched a presentation given by the founder of World Camps, Phil Lilienthal. As a Unit we were touched by the experience that other girls were having in South Africa at a camp for those affected by HIV/AIDS. All the campers who attend are sponsored as financially their families could not afford the cost of camp. A lot of the girls would live in a house that would consist of 2 to 3 rooms where up to 15 people may live.

Camp Sizanani, is a Zulu word for "to help each other". Camp is a secure place where the girls can have fun yet also learn life skills to equip them for the future. It costs US\$500 for one camper to attend for a 10 day session. After the presentation at Wyo campers rallied together to set the goal of raising \$500 to sponsor a camper. The campers did this by reducing waste around camp (turning off lights to save power, reusing their paper cups, taking 1 napkin rather than 3, sending a sensible amount of clothing to the laundry to save power) and giving up their candy line.

So in November I headed to South Africa and was surrounded by 140 spirited girls and 25 staff from the township of Soweto. I was truly touched by their zest and love for life despite the difficulties that life had so far presented to them. South Africa has the largest number of people living with HIV/AIDS. 5.3 million people are HIV positive which equates to 1 in 5 people.

The magic of camp filled these girls spirits, they sang with the most beautiful voices, laughed so loud, danced like you have never seen and appreciated every piece of food on their plate. It was a delight to be in the company of these girls who were so grateful for being at camp. Once camp is over the girls are able to reconnect with camp friends through a fortnightly youth group called Kids Club which is based in their local community.

If anyone would like more information on this great organization the website is [www.worldcamps.org](http://www.worldcamps.org)

Kiyi and here's to a great summer in 2006

## Cabin "I"

### Letter from Lungile Dingwayo.

the camper Wyonegonic sponsored for World Camps, Camp Sizanani Nov/Dec 2005

My name is Lungile and my surname is Dingwayo. I live in Orlando East in Soweto, South Africa. I am a fifteen year old girl. I have heard of the good thing that Wyonegonic Camps has done for me. You have made my holiday nice and enjoyable. What I learned is that you must know how to share, communicate, respect, focus and make new friends. You know you guys you did a great job helping me. I loved all the things we did here.

We wake up at 5 O'clock and go and have a shower, then at 8 O'clock we eat breakfast. There was this thing of getting numbers from one to eleven for each cabin. So every time we ate we would run to the dining room to be number one which would mean we would eat first. After eating we go to either sport or nature. In nature we talk about nature and its belongings. In sport we would do exercise and then play netball or volleyball. Then we go to life skills. In life skills I learnt a lot about HIV/AIDS. We talked about this. I enjoyed this activity because I now know things I didn't know. So it was great.

After that we go to adventure where we played wonderful games which were not just for fun but they were educational. We learnt to share and communicate with each other in

a good way. I would like to improve on not cheating. I learnt that sometimes you have to take risks in order to survive and to trust my team mates, they were like sisters.

Then we do the same thing we do at breakfast, run to be number one and if you are number eleven you are going to be the joke and it means your cabin will eat last. After eating the nice food we go to our cabins and share problems, chat, solve problems that we can and try and understand each other.

Then we prepare ourselves to go to arts and crafts, swimming, drama/drum or dance. In arts and crafts we learn how to make things that can be attractive and then we move onto the next period. Swimming, oh it is my best. We learnt how to swim and I was the best of them all. Bev and Celiwe, vochelis (counselors) for swimming told me I must go and train for being a life guard and a junior vocheli for swimming because I did very well.

They also told me to talk to Michelle who oversees the camp and they will let her know that I am a good young swimmer at Camp Sizanani. They are so impressed with me and I am too.

Then I went to drama where I was in a play and I learnt you must not do the wrong things in order to survive or impress your

friends. Because when you are in trouble you know that when days are dark friends are few. Then we went to our last meal for the day, dinner. After dinner we have entertainment.

This camp is the best holiday I ever had in my life. My best vocheli's are Si, Celiwe, Mpho, Tumi, Jackey, Lebo, Lee, Ntskikie and Faith. My cabin counselors are Si and Tinyiyo. I enjoyed being in cabin i. My friends are Busi, Bontle, Nhlantila, Precious, Promise, Khumo, Delane, Hazel, Twana, Mpho, Tsakane, Malehlaka. I enjoyed their support, care, friendship, protection, company and many things. Everything was perfect.

"... The experience is renewing every year, and a spiritual high that lasts from August to August."
