# Moose Pond

November 2018

Dear Friends,

A common question often asked by peers and friends in early September is "How was last summer?" One of the words to describe summer was ... HOT!

Aren't we lucky to be on the shoreline of Moose Pond? We were in the water several times a day. A few days we even called for a mandatory swim . . . no horseback riding, tennis, or ropes course but a huge dose of swimming, kayaking, canoeing, sailing, and stand up paddle boarding. And, have you heard about the floating water mat? Juniors and Intermediates love this popular activity. It is a floating mat that holds about 12 campers until they lose their balance or get a friendly push into the refreshing Moose Pond waters.

When Wyonegonic started over 100 years ago, there were no roads into camp, Moose Pond was the way campers, visiting parents, food, mail, and supplies arrived by boat from Denmark. Wyonegonic has always taken advantage of our beloved Moose Pond. Each summer we train approximately 50 lifeguards in anticipation of multiple activities in the water. Sorry alums no more soapies or hair washing in the lake (as pictured). For safety reasons no more swims across the lake, no more night time skinny dips or campers on the lake without life jackets. Yes, times have changed but our love for Moose Pond has never wavered.

We feel fortunate to have Moose Pond at our doorstep and never take the refreshing waters for granted. We try to educate the Wyonegonic Community about smart use and care of the lake so it continues to be a beautiful resource for future campers.

Besides hours on or in the water, campers explored many other activities including canoe and hiking trips. We hope next year they will bring along a friend to enjoy not only Moose Pond but experience the joys and lessons of camp. Please help us share the benefits of the Wyonegonic Experience with prospective families.

Warm regards to each of you,

# Fun Facts about Moose Pond

## Did you know?

Moose Pond is man made, dammed at the southern end in Denmark in 1792

The water was dammed up because there was a lumber mill built in Denmark and the water was used as a highway for floating logs downstream to the mill.

The lake is 13 miles long.

The water was a river that wrapped around Pleasant Mountain and flowed to Denmark, Moose Creek and then the Saco River.

Wyonegonic owns approximately 2 miles of Moose pond shoreline.

In the early 1900's campers, food, mail, visiting parents arrived at Wyonegonic by boat from Denmark because there were no roads into camp.

Winona, our brother camp is a two hour paddle along the eastern shore.

We have seen moose and deer swim across the pond in the Fall after camp is over.

Loons love our lake and in a normal summer we witness a mother teaching her newborns how to swim and fish.

In early Wyonegonic days blocks of ice were cut from the lake and stored for refrigeration for summer time food.

In the wintertime you can walk across the lake

Fisherman sometimes drive their trucks on the frozen pond and drill a hole in the ice to go fishing.

Some hikers say as you look east towards Denmark from the ledges, the shape of the pond looks like a moose.

Because Moose Pond was a river the depth is unpredictable. What looks like the middle of the lake might only be 15 feet deep and the shoreline near the Wyonegonic sailboat moorings has spots that are 45 feet deep.

Water from Moose Pond runs through 4 towns before it gets to the Saco River in Hiram – Sweden, Bridgton, Denmark, and Hiram.

Did you know WYONEGONIC means long lake in the Penobscot language?

It was beautiful - from **Lindsey** and Prentice's shared stories, to her students in the choir, the minister who clearly understood Brooke, to the steel drums booming when we exited the church. *Wyo Reflections - Molly Alderman Kozy*  
1965-71, 1976

*Wyonegonic means so much to me. As a child, I lived for camp. Winter months were a long countdown until I could return to Wyo. It was beautiful, like nowhere else I had ever been. I had friends. I learned how to sail, paddle a canoe, dig a latrine pit and pitch a tent, and chop a tree. At home, I was a bookish sedentary child, but at camp I learned that I was also strong! I could climb a mountain. I could swim well enough to earn my lifesaving certificate. I could sail a boat and win a race.*

*At camp I learned things about myself. Counselors saw me as creative, competent, and a positive influence on my peers. My goodness, I was elected a leader. As an adult I have held a series of leadership/management positions, culminating in a job as a Dean of a Nursing school. The seeds for my development as a leader were planted at Wyonegonic. I wanted my children to have camp. Family Camp was the perfect option. My kids LOVED it. There was a sense of safe freedom for them as they roamed the camp and went to activities. My 35 year old daughter still remembers the night I woke her and brought her onto the dock to look at the stars.*

*This summer at Family Camp I was walking the cabin line and I thought "I would like to feel like this always - comfortable, at ease with myself and surroundings." Wyo has a special spirit all its own. Girls are loved, appreciated supported and nurtured for who they are.*

*I must acknowledge that this has to do with the personalities involved in running the camp. Carol and George created a culture of respect and excellence. And, 30 years later run by their three children, I still celebrate the leadership. Wyonegonic is viable and from all appearances thriving. I stand in the Wiggie, the cabin line, the Pine Grove and it FEELS the same. The spirit, the love, the values, have NOT changed. I am better for being a part of it. Good things continue to happen here through the generations.*

*With deep gratitude to the Sudduths - Carol, Steven, David and Susan, Family Camp for me last summer was like coming home.*

*It all starts with ONE: a proud alumni who feels passionate about her experience and wants to share that with others. This is a gift that can be passed along to campers who might find the Wyonegonic Experience a positive step on the journey to adulthood. This is a gift that will benefit the entire camp community and help them understand the importance of reaching out to others less fortunate. One by one we can reach our goal.*
